

AN OPEN LETTER To MOTHERS.

WE ARE ASSERTING IN THE COURTS OUR RIGHT TO THE EXCLUSIVE USE OF THE WORD "CASTORIA," AND "PITCHER'S CASTORIA," AS OUR TRADE MARK.

I, DR. SAMUEL PITCHER, of Hyannis, Massachusetts, was the originator of "PITCHER'S CASTORIA," the same that has borne and does now bear the fac-simile signature of *Chas. H. Fletcher* on every wrapper. This is the original "PITCHER'S CASTORIA," which has been used in the homes of the Mothers of America for over thirty years. LOOK CAREFULLY at the wrapper and see that it is the kind you have always bought and has the signature of *Chas. H. Fletcher* on the wrapper. No one has authority from me to use my name except The Centaur Company of which Chas. H. Fletcher is President.

March 8, 1897. *Samuel Pitcher, M.D.*

Do not endanger the life of your child by accepting a cheap substitute which some druggist may offer you (because he makes a few more pennies on it), the ingredients of which even he does not know.

"The Kind You Have Always Bought"
BEARS THE FAC-SIMILE SIGNATURE OF

Chas. H. Fletcher

MARK YOUR BALLOT

WITH BLUE PENCIL ONLY AT THE NEXT ELECTION.

And Not With a Rubber Stamp, as Heretofore—The Process Simplified Under the New Law—Make a Cross With a Blue Pencil, Furnished by the Election Officials, Inside the Large Circle Surrounding the Eagle.

Republicans should make sure that nothing will prevent them from voting on August 10, and they should make doubly sure that they mark their ballots correctly, in accordance with the new law, so that they will be counted. The new method is simple, but should be thoroughly understood. Make a cross, or an "X," not a dot or any other mark, in the circle surrounding the eagle at the head of the Republican ticket.

The changes made by the new law are as follows: A large circle is substituted for the large square surrounding the party emblem at the head of each ticket. Around the outer edge of the circle are the words "To vote a straight ticket make an 'X' within one circle and not otherwise."

A blue pencil is used by the voter instead of a rubber stamp. The pencil is given each voter by the polling clerk, and is supplied by the election officials. No other pencil can be used, and the pencil must be returned by the voter to the clerk.

To vote the straight Republican ticket make a cross or an "X," with the blue pencil inside the large circle surrounding the eagle. At the August special election there will be but one name on each ticket. There will, therefore, be no opportunity to vote a "mixed ticket." A cross or an "X," in the small square in front of the name of Charles W. Lee will have the same effect, exactly, as a cross, or an "X," in the large circle around the eagle. A "mixed ticket" is voted with a pencil in the same manner as formerly with the rubber stamp, where more than one name appears on the various tickets.

Mark your ballot with a cross inside the circle and NOT ELSEWHERE, as follows:

Make a Cross, or an "X," and Nothing Else.

GENERAL INSTRUCTIONS.

1. Get your ballot of the polling clerk in the election room, who will also furnish you a blue pencil with which to mark the ballot.
2. Retire to a booth and handle the ballot carefully on shelf so as not to get spots or stains on paper. To vote a straight ticket, make a cross with the blue pencil within the large circle at the head of the ticket containing the device of the party for whose candidate you desire to vote. If the ballot is marked with any character what-ho is not the one cross which designates your choice it will be declared to be null and void.
3. Names must not be erased from or written on the ballot, or any mark made, except as above indicated. Otherwise the ballot will not be counted.
4. When the ballot is properly marked, fold it so that the face cannot be seen, and so that the initials of the polling clerk on the corner of the back of the ballot can be seen. Give the ballot to the inspector and the pencil to the polling clerk.
5. If you should accidentally, or by mistake mark your ballot incorrectly, deface or mutilate it, fold the face inward and return it to the polling clerk and obtain a new one.
6. You must not receive a ballot, other than a sample ballot, from any person except the election officials. It is a penalty offense to have an official ballot in your possession except as above stated.
7. You must not indicate to any person in the election room how you intend to vote, and engage in no conversation, except with the officials.
8. If you cannot read English or, because of physical disability, cannot mark your ballot, so inform the election clerk, who, upon your instruction, will mark your ballot as you desire. It is a penalty offense to declare that you cannot read English or cannot mark your ballot if, in fact, you can.

Prices.

During the Cleveland campaign in 1892 much was said about prices. It was contended by the free traders that prices were too high, and all because of the dreadful McKinley tariff law; that the farmer and laboring man who were compelled to buy clothing and manufactured products were being ruined by the "robber tariff" prices. On the other hand, the protectionists, notably General Harrison and Major McKinley, insisted that good prices stimulated trade, brought good wages, good markets and good times; that low prices depressed trade, brought poor markets, low wages and hard times; that cheapness did not mean better conditions; that a cheap man meant a cheap man, underpaid wages and poverty for the masses.

Why, it seems, but yesterday that every crossroads Democratic editor smashed to smithereens the "cheap coat" argument and sought to give General Harrison some sound instruction in political economy. Later the free traders took charge of all branches of the government and they repealed the "robber tariff" law, and began the reduction of prices, which they claimed were too high, and to their dismay all the arguments of Harrison and McKinley have been verified. But it seems the Democratic party has learned very little by the experience, for in the recent vote in the United States senate only one Democratic vote was cast for the restoration of a protective tariff.

GOV. MOUNT'S APPEAL

He Asks the State at Large to Assist the Miners.

NECESSITIES OF LIFE NEEDED.

Operators Acknowledge Their Responsibility in a Measure For Present Condition—Women and Children Enduring Unbearable Hardships—Meeting of Operators and Arbitrators at Pittsburgh.

INDIANAPOLIS, July 27.—John B. Conner, state statistician, and Thomas J. Terhune, ex-judge of the Boone circuit court, appointed special commissioners by Governor Mount to investigate the conditions existing in the mining district of the state, concluded their mission yesterday, by submitting a written report to the governor. Their conclusions were deemed of sufficient importance to warrant the governor in taking steps for making a public appeal for assistance for the miners and their families and with that end in view a meeting of representative citizens, together with the state officers, was held at the parlors of the executive department last evening. The report of the commissioners was considered and it was unanimously declared that the emergency was of sufficiently serious import to demand a formal appeal to the state at large for means to provide relief for the prevailing distress in the coal mining districts.

GOVERNOR MOUNT.

After a thorough and pains-taking examination of the condition of the Indiana coal miners and their families, it becomes apparent that they are sorely in need of prompt and liberal assistance. It is not pertinent, at present, to enter into argument to account for existing conditions. The mere fact that they exist is sufficient. The situation confronting us is one that strongly appeals to human sympathy and invites the most generous consideration, and I urgently appeal for prompt and sufficient public assistance, to the end that pressing necessities may be relieved and in order that the unfortunate miners and their dependent families may have renewed and practical assurance that neither the republic nor the state is ungrateful.

The miners are discontented with the conditions to which they are subjected, but they continue to manifest a commendable spirit of patience and are animated by a patriotic purpose to preserve the peace—thus adding honor to their citizenship and appealing all the more strongly to the helping hands of those who can afford to give. Money, provisions or clothing will be equally acceptable, and I earnestly hope that every community in Indiana will promptly respond to this appeal by instituting organized efforts for providing relief to distressed fellow-beings.

It should constantly be borne in mind that the prevailing destitution and want in the coal districts is a condition for which the miners are by no means wholly responsible. There is ample testimony of the most trustworthy character, made on the authority of operators themselves, that these employees are so poorly paid, the direct result of unwise competition among producers, that the compensation is barely sufficient, under the most favorable circumstances, to provide sustenance.

Whist mothers and children are enduring almost unbearable hardships in consequence of being bereaved of the necessities of life, a generous people should not long withhold their practical offerings of sympathy and charity. May the Christ-like spirit of philanthropy fill the hearts of all our citizens and cause them to realize the truth of the divine injunction that "It is more blessed to give than to receive." I therefore call upon the people of our great state to render to these unfortunate miners and their ill-fated families all the assistance possible. I sincerely trust that all the cities and counties in Indiana will at once adopt means for making contributions, all of which will be received by the central organization at Indianapolis and be thence distributed in an orderly and methodical manner to those who are found worthy and deserving, in accordance with arrangements yet to be determined in detail.

What the Commission Says.

The commissioners in their report say that if the present conditions continue much longer in the six coal counties 1947 families, with an average of four to the family or 7788 persons will be in actual want, to say nothing of miners with no families many of whom are in hard lines.

PITTSBURG MEETING.

Operators and Arbitrators in Session. Peace Men Elated.

PITTSBURG, July 27.—The mining situation in this district is quiet and unchanged. Both sides are waiting for the result of the meeting today of the operators. The arbitrators are highly elated at the prospects. All agree in saying that it will be the largest meeting of operators ever held in this district. All of the western miners arrived last night and the eastern people came this morning. Hotel lobbies were meeting places last night for the operators already here and the strike question was well discussed.

While a large number are not in favor of the old uniform plan, all are anxious to hear what new phase the peace commissioners have given the subject. Some are decidedly opposed to uniformity, but all are in favor of arbitration.

for settlement of the strike. The board is busy completing a contract which is to be presented to the meeting at the courthouse. No one can at this time predict the outcome of the conference, which is expected to last two, or perhaps three days, and neither side has anything to say as to the proceedings.

Failure in the Fairmont District.

FAIRMONT, W. Va., July 27.—The strike in this state which Ratchford predicted would be general yesterday has proven a flat failure. After days of vigorous efforts by Debs, Mahon, Coffer, Miller and Ratchford, the miners at Fairmont remain unshaken. It was agreed that if there was no strike yesterday, efforts would cease and an appeal be made to the railroad men to stop hauling coal.

BAR ASSOCIATION.

Major C. W. F. Dick's Admission to Practice Being Investigated.

AKRON, O., July 27.—The investigating committee appointed by the State Bar association will soon look into the alleged irregular admission to the bar of Major Charles W. F. Dick of this city. It is claimed that Major Dick did not comply with the rules requiring attorneys to either graduate at a regular law school or study three years in a law office.

Major Dick's admission to the bar a year ago was a surprise to Akron attorneys. It was not known that he was studying law. He has since been admitted to practice in the United States supreme court. Lawyers are required to practice three years at home before they can be admitted there.

WAS'N'T LONGFELLOW.

Identity of the Hopkinsville Suicide Still Unknown.

HOPKINSVILLE, Ky., July 27.—The mystery surrounding the identity of the stranger who died in this city Friday from the effects of a dose of morphine still remains unsolved. It was thought that he might prove to be John Longfellow, who is wanted in Cincinnati for assaulting a child. A description of Longfellow received from that city by the police here does away with this belief, as there is no resemblance between the dead man and Longfellow's description. Several other clues have been placed in the hands of the police and it is thought one may result in solving the question of the dead man's identity.

ELECTROCUTED.

Teamster Climbs a Telephone Pole and Grasps a Live Wire.

NEWARK, N. J., July 27.—William Karstens, 28 years old, was electrocuted on a telephone pole in front of Kaffold's hotel. He touched a live electric light wire, a flame shot forth and the man dropped from the pole dead.

Karstens formerly lived at the hotel. While there he was in the habit of climbing up a high pole to the first crossarm used by the telephone company and sitting on it, and he was again trying this feat when he grasped a live wire.

Boston Dinner to Secretary Gage.

Boston, July 27.—Lyman J. Gage, secretary of the treasury, who is to be the special guest of honor at a dinner given by Boston business men this evening, arrived in Boston last night accompanied by his wife.

Sold by Order of Court.

MAHON, O., July 27.—The plant of the Marion Milling company was sold to a reorganizer of the company for \$9,894 under an order of sale issued in the case of the Hayden National bank of Columbus against T. P. Wallace.

McCoys and Ryan.

SYRACUSE, July 27.—The sparring match between Kid McCoy and Tommy Ryan will take place at the Empire Athletic club in this city, Sept. 8, for a purse of \$5,000.

Went to Jail.

MUNCIE, Ind., July 27.—The first of the Sunday law violation cases was tried yesterday and Josiah Drake, ice cream dealer, was found guilty and fined \$10. He was sent to jail in default of payment.

A woman's best friend is her baby. A healthy, happy child is womanhood's most appropriate ornament. A childless woman is to be pitied, even though she be the possessor of other jewels that are priceless. A womanly woman knows the difference of the clinging, confiding touch of baby hands. Thousands of women lead childless, loveless lives because of ill-health. They do not understand the baby's health and makes its coming easy and almost painless. More than 90,000 women have testified in writing to its value. All good druggists sell it.

In this they are mistaken. Dr. Pierce's Favorite Prescription is a safe, swift cure for all weaknesses and diseases of the organs distinctly feminine. It acts directly and only on these organs. It prepares a woman for motherhood. It always all discomfort during the expectant period. It insures the baby's health and makes its coming easy and almost painless. More than 90,000 women have testified in writing to its value. All good druggists sell it.

Mrs. Rebecca Gardner, of Grafton, N.Y., writes: "I was sick with dyspepsia that I could not eat anything for over four months. I had to starve myself, as nothing would stay on my stomach. I tried almost everything that people would tell me about, and nothing did me any good. I weighed only 80 pounds. I took two bottles of your 'Favorite Prescription' and, thank God, and your medicine, I am as well as I ever was, and now weigh 115 pounds. I have a bottle of your 'Favorite Prescription' now, and that is a wonderful medicine for female weakness. Praise God that he created such a man as you."

Business is business. No time for headaches. Constipation causes them. Doctor Pierce's Pleasant Pellets cure them by carrying the cause. One little "Pellet" is a gentle laxative, and two a mild cathartic.

ROBT. J. TRACEWELL

President McKinley Will Make Him Controller of Treasury.

APPOINTMENT OF POWDERLY.

Many Inconsistencies Discovered in the New Tariff Bill, Which May Cause Trouble—Taylor and Woodford Shown Exceptional Honors by the Queen of Spain—Indiana Postmasters.

WASHINGTON, July 27.—The president has decided to appoint Hon. Robert J. Tracewell of Indiana for the position of controller of the treasury. President McKinley, realizing the important questions coming up for decision in the controller's office, has been giving the matter of the selection of an appointee considerable attention and finally concluded to give the place to Mr. Tracewell. The appointment, it is said at the white house, is entirely one of merit. Mr. Tracewell being selected because of his fine legal attainments.

The position has been vacant since the retirement of Controller Bowler on the first inst. Mr. Tracewell is a native of Virginia but in early life moved with his parents to Indiana, where he has since resided. He was a representative in the Fifty-fourth congress from the Third district of his state and is 45 years of age.

Powderly's Appointment Signed.

The recess appointment of Hon. T. V. Powderly as commissioner general of immigration was signed by the President yesterday. Mr. Powderly's nomination for that office failed of confirmation in the senate because of the opposition to him on the part of labor organizations.

TARIFF INCONSISTENCIES.

Many Have Been Discovered in the New Act.

WASHINGTON, July 27.—The treasury officials already have discovered a number of inconsistencies in the new tariff act, some of them, it is feared, being incapable of reconciliation. It is pointed out that section 263 places the duty on plums at 25 cents per bushel, and section 264 fixes the rate at 2 cents per pound. An error in these paragraphs as to currants was corrected in conference. Another section fixes the rate of duty on hides of cattle at 15 per cent ad valorem, and admits raw skins free. The question involved is the classification of calf skins it being contended that commercially calf skins are not classed as hides of cattle and hence are entitled to free entry which is believed to be contrary to the purpose of congress.

Attention is also called to the fact that the provision as to licenses for custom brokers was, by inadvertence, it is believed, left out of the act. Circulars are in preparation construing a number of the sections of the act. Persons entering this country are permitted under certain restrictions to bring with them duty free "usual and reasonable furniture." This is interpreted to mean such furniture as would be reasonable and useful for the personal use of persons in their condition of life.

Without Precedent.

WASHINGTON, July 27.—The state department has been informed that a very gracious exception has been made by the queen regent of Spain in consenting to receive Mr. Taylor, the retiring United States minister, and Mr. Woodford, the new minister, at San Sebastian, where she does not maintain a court in the usual sense of the term. The ceremony necessarily will be informal. This arrangement was brought about through the courteous and considerate offices of the duke of Tetuan. It is without precedent.

Indiana Postmasters.

WASHINGTON, July 27.—Indiana postmasters were appointed yesterday as follows: Bass, G. F. Warkentin; Bloomington, W. M. McCoy; Fortaker, J. E. Miller; Hastings, Lizzie Cummings; Moul, C. W. Means; Reese Mills, J. S. Moore; Summit Grove, T. M. James; Wynatt, W. G. Deal.

WAS PROUD OF IT.

Receiver Hubbard Sentenced to the Penitentiary—Sensational Speech.

TOPEKA, July 27.—A. D. Hubbard, who was convicted of embezzling \$8,000, as receiver of the Hamilton Printing company, was yesterday sentenced to three years in the penitentiary by Judge Hazen.

Hubbard was a prominent lawyer here at the time of his arrest, was law partner to Lieutenant Governor Harvey and was state president of the A. P. A. of Kansas.

When sentence was pronounced Hubbard made a sensational speech. He said he was convinced that he was convicted because of his connection with the A. P. A., and if so was proud of it.

That Amount Represents the Loss of Importers For Last Saturday.

NEW YORK, July 27.—When Collector of Customs Bidwell made formal announcement yesterday that the duties at Dingley law rates would be collected on goods entered on Saturday, many protests were at once filed by importers of goods entering on that day.

These goods arrived by the Normania from Hamburg, the Paris from Southampton and the Umbria from Liverpool. The duties under the new tariff on the goods on these three vessels amounted to about \$800,000. Under the Wilson tariff the duties would have amounted to about \$800,000. Accordingly the loss to importers appeared to be about \$300,000.

Kept His Vow.

LOGANSPORT, Ind., July 27.—Charles West, a "lifer," recently paroled from the prison north, owes his liberation to James Murphy of this city, who, 15 years ago, when but a lad, heard his mother read the evidence which convicted West, and then and there vowed that West was innocent, and that when a man he would work for the prisoner's release. Murphy kept his vow.

Highly Flattering.

Gordon Hartwell, a prosperous far-
mer in Jennings county drove down to
the city this morning on business. He
informed us that the prospect for an
immense corn crop was never so good
as now. Even the high upland will
have a heavy yield.

Charles Hazzard,

The clever business man that he is

80,000,000 BUSHELS

Of American Wheat Needed to Supply De-
mand in France Alone.

It looks as if the deficiency in the
wheat crop in France would be so great
that not less than 80,000,000 bushels of
American wheat will have to be im-
ported to satisfy the demand. In the
Danubian states and in southern Rus-
sia the wheat crop is announced as
practically a failure. There is a short-
age in Argentina, in Australia and In-
dia. The latest reports from agricul-
tural centers make it clear that the
wheat crop in the United States this
year will exceed the crop of last by
more than 100,000,000 bushels. At
least 550,000,000 bushels are promised.
What do these figures signify? They
signify prices for the farmer higher
than any he has enjoyed for many
years. They signify more money spent
as a consequence this fall with the
country merchant. That means that
the country merchant must buy of the
jobbers in the city. It means a general
increase in the circulation of money
throughout the country, a restoration
of confidence and therefore better
times. Nothing else can be figured out
of it. Even the Bryanites are forced to
this conclusion after a view of the pre-
misses.

When the baby is teething he is
nearly always fretting. The best thing

ECLIPSE OF THE SUN.

May be Visible Here About 7:30 O'clock
Thursday Morning.

Next Thursday morning between 7
and 10 o'clock will occur an eclipse of
the sun, which will be partial to the
central part of the United States and
visible in this vicinity. To observers
here it will begin at about 7:30 o'clock
and will end about an hour later. The
sun will be about one third eclipsed as
the moon in its circuit passes between
the earth and the sun. Throughout the
United States, Mexico, Central America
and the northern portion of South
America, is a strip 2,300 miles wide, ex-
tending across the Atlantic, on the west
coast of Africa and in a part of the Pa-
cific ocean the eclipse will be visible.
Along the equator it will be total.

CHURCH NOTES.

Miss Kate Andrews left this morning
for Winona to attend a meeting there.

W. M. Isaacs spent today in the city
in the interest of the Sunday school
picnic at Honeytown.

Many of our young people went this
morning to Rockford to attend the
Baptist Sunday school picnic.

Rev. F. H. Tormohlen went last even-
ing to Columbus to begin a ten days'
protracted meeting at the Friends'
church.

Presiding Elder E. A. Campbell held
quarterly conference at the M. E. church
last night. He returned home to
Moore's Hill this morning.

The Silver Heights camp meeting
closed last night after a profitable ses-
sion. Our people came home this
morning and all felt that it was well to
be there.

The Bible class met yesterday fore-
noon and afternoon at the Christian
church, with Elder A. F. Beare and as-
sistants in charge. The sessions were
quite instructive.

Rev. Dr. George L. Curtis, of Colum-
bus, spent yesterday in the city com-
pleting arrangements for the purpose of
holding the itinerant school of the
Indiana conference of the M. E. church
to be held here in August. It is ex-
pected that nearly 100 ministers will be
in attendance.

McLean's Great Newspaper.

There is no single exception, there is no doubt no greater or more popular newspaper in the United States than the Cincinnati Enquirer; and a more successful publisher than its proprietor, Mr. John R. McLean. The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: "The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford."

The very liberal support given the Enquirer by the public at large, makes incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as in use of greater magnitude.

GORGEOUS AND FAST.

An Amateur Skipper's Experience With an Entirely Unbeaten Catboat.

Summing up the advantages of certain places for the enjoyment of vacation and dilating on the pleasure and excitement of sailing small boats, an amateur skipper related an experience on the south shore of Long Island by saying: "I couldn't get away from town until the middle of the season, and when I arrived at—well, no matter where—I had difficulty in finding a catboat, but after a day's hunt I found a 17 footer, the only boat on that part of the bay that had not been let for the rest of the season. She had black body and a yellow deck, with blue trimmings, red seats and a lead colored floor. She was a little too gorgeous for my taste, but I had to take her or have nothing."

"The bayman that owned her said that he had been too busy to put her in condition before that time. 'She's a fine boat, sir, and fast, too,' he said. 'She's won every race in her class, and she can carry sail with the best of 'em.' I took her, but in the course of a week I couldn't get much speed out of her. She lagged her sail all right, and the best fun I had was in taking her out in rough weather and letting her slash through the waves of the water."

"One day we had a race, and I entered the boat. I don't remember whether I was the last or the next to the last at the finish, but I know I had no show whatever for a place. Afterward I thought I'd make some inquiries. 'Do you know my boat, Cap?' I asked, trying to get into confidential relations with an old bayman who was trying to ease himself through the rest of his lifetime by the use of a stout piece of cherry."

"Reckon I do," he replied, and he tried to repress a smile.

"How old is she?"

"Bout ten year, I reckon."

"How many races has she sailed in?"

"One besides this."

"One besides this?"

"Yes, by a fluke. The other boat 'broke down.'"

Republicans Encouraged.

As the time approaches for the special election in this district on Aug. 19, the Republicans have reason to be greatly encouraged over the prospects for success. The campaign was properly started by the Republicans in the nomination of Hon. Charles W. Lee, who is in every way well equipped to make the race a winning one. His popularity with the masses and the farmers, his geniality and hearty handiness, make him a most formidable candidate. He is sound on party principles, and is a strong supporter of the administration and its policy. He is a safe man to represent the district in congress.

Who are Employing "Spotters."

It has finally been found out that various security companies are responsible for the employment of "spotters" on the different railroads. Many of the employees of railroads are under bond, and these bonds are furnished by security companies. In order to find out what their wards are doing, the detectives were employed to ascertain their habits of life, etc. A conductor was discharged because he was a frequenter of the race track and made bets in a small way, though his reports apparently were all right, and so far as can be found out, he used only his own money. Several employees of the local lines are on the list as the result of the work of spotters.—Indianapolis News.

No Politics in This.

The last week has developed a general feeling that the times of business prosperity so long looked for are at hand. Far-seeing and prudent business men freely express their confidence in an almost immediate revival of business. The stock and grain markets are not the only indices pointing in this direction. The condition of the crops the present and prospective demand therefore, the decided improvement in the live stock and packing industries the published statements showing the great reduction which has been effected in farm mortgages and other burdensome forms of indebtedness, the pending settlement of the tariff question the excitement regarding gold mining the increased inquiry for railway equipment—all these point in one direction—Railway and Engineering Review.

Reasons Why Chamberlain's Colic, Cholera and Diarrhoea Remedy is the Best.

1. Because it affords instant relief in case of pain in the stomach, colic and cholera morbus.
2. Because it is the only remedy that never fails in the most severe cases of dysentery and diarrhoea.
3. Because it is the only remedy that will cure chronic diarrhoea.
4. Because it is the only remedy that will prevent bilious colic.
5. Because it is the only remedy that will cure epidemic dysentery.
6. Because it is the only remedy that can always be depended upon in cases of cholera infantum.
7. Because it is the most prompt and most reliable medicine in use for bowel complaints.
8. Because it produces no bad result.
9. Because it is pleasant and safe to take.
10. Because it has saved the lives of more people than any other medicine in the world.

Ought to be Easy.

A Populist paper boasts that the Populists have taught the democratic party to believe in fiatism, that is to say in the ability of the government to maintain an unlimited number of silver dollars at par with gold without any thing but a fiat behind them, so that now it ought to be easy to teach these same democrats that the best thing for the country will be an issue of five hundred million dollars in greenbacks. Yes, that ought to be easy. Some democrats we know are ready to be convinced of anything—Mobil R g' ter.

BLAINE'S MEMORY.

NEVER FORGOT A FACE OR THE NAME OF AN ACQUAINTANCE.

The Wedding Notice He Wrote When an Editor—Some Striking Incidents That Were Related by Ex-Governor Cumback of Indiana.

Upon taking editorial charge of the Kennebunk Journal Mr. Blaine soon familiarized himself with Maine politics, and he studied them closely as far back as 1825. By this means he soon became the best posted man in the state on Maine politics, and he was looked upon as authority. His able editorials during the campaign bringing up political matters of the past showed careful research, and they were copied widely. It was while editor of The Journal that he was one day stopped on the street by an old lady whom he had never seen before and asked to write up the wedding of her daughter, which occurred the night before.

Blaine had served his time in congress and went to Maine to speak during his campaign, when at the close of his speech he began shaking hands with the masses crowded around him. An old lady with wrinkled brow and whitened hair, bearing a babe in her arms, approached and offered her hand.

"Why, how do you do?" said Mr. Blaine. "Where's that daughter of yours I wrote up that wedding notice about?"

"Poor Lucy is dead," said the old lady, and her eyes filled with tears. "This is her child."

The man with the big, kind heart reached over and kissed the little blue-eyed girl.

During the Greeley campaign in 1878 ex-Governor Cumback of Indiana spoke with Mr. Blaine in Springfield, O. This was early in the campaign. Just before the election Mr. Cumback was sent up in Blaine's state to make a speech. He was told by the committee that he would find Maine people very stiff and inhospitable and quite different from the western people. Mr. Cumback was surprised, however, at the enthusiastic reception, there being large crowds everywhere, and he never had a more enthusiastic meeting than at Augusta. He told Blaine of the incident and his agreeable disappointment.

"Oh," said the statesman, "they had a man of unusual stuff to get them stirred up! Such a man on a speech as you are would have a good reputation anywhere."

"But what do you know about my speech?" asked the governor.

"Like to you speak with me over at Springfield?" said Blaine in a way as a reminder. Then he went ahead and told Mr. Cumback all about his speech, of the crowd present and gave promptly all the main points of the speech and even named the party with them. He also remembered at what hotel they put up and what day of the week it was.

Another instance of Blaine's great memory is cited in the following story, as told by Mr. Cumback:

During the Garfield campaign Mr. Blaine spoke in Cumback's town. He was entertained by Mr. Cumback and driven over town.

"There's a sick man in that house there that has been talking you up for president for four or five years," said the governor, "and he thinks there is no one like Jim Blaine."

"Me for president?" said Blaine.

"Yes, you for president. Do you want to stop and go in to see him a minute? Nothing would please him better."

They went in and remained a few minutes. Blaine trotted the children on his hip and talked freely with the sick man, whose name was David Kerr.

Blaine and the governor met at Garfield's inauguration.

"How are you, Will?" asked Blaine. And he asked all about the men he had met in Cumback's town several months before and called nearly all of them by their first names. "Oh, yes," he said, "how is Dave Kerr? Did he ever get well? Poor fellow, he suffered terribly. And those little children, how about them?"

This may be considered a wonderful feat of memory. It was in October when he met these people, and it was on the 4th of March, nearly five months afterward, that he recalled his visit, remembering the name of every person he was introduced to on that day. He had seen a million people since that time and had shaken hands with and met thousands.

Mr. Cumback accompanied Mr. Blaine on his speaking tour through Indiana during his campaign in 1884. It was just ten days before election. Cumback left him at Lafayette, saying that he wouldn't see him again until the inauguration.

"I don't know," said Blaine doubtfully. "I'm afraid it won't be."

He had an unusual, vacant, faraway look in his eyes, and he was very serious. His words came slowly and hesitatingly. Mr. Cumback assured him that there was no doubt, but Blaine shook his head.

"I don't know," said he. "I've had a sort of feeling for the last week that I wouldn't be elected. I hope I will, but the outcome is doubtful, and I feel now as if it were very doubtful. But if I am defeated I will go to work the next day on my log book."

And he did. He began the second volume of his "Twenty Years of Congress" the next day after the election. —Chicago Times-Herald.

He Said.

"Don't waste your time in clipping off the branches," said the woodman to his son, "but lay your ax at the root of the tree." And the young man went out and laid his ax at the foot of the tree, like a good and dutiful boy, and then he went fishing. Truly there is nothing so beautiful as filial obedience. —Strand Magazine.

HOW TO FIND OUT.

Fill a bottle of common water glass with urine and let it stand twenty-four hours; a sediment or settling indicates a diseased condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

What to do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp Root, the great kidney remedy, fulfills every wish in relieving pain in back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and scalding pain passing it or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and the extraordinary effect of Swamp Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists price fifty cents and one dollar. For a sample bottle and pamphlet, both sent free by mail, mention the Seymour Republican, and send your full post-office address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its genuineness.

MARK YOUR BALLOT

WITH BLUE PENCIL ONLY AT THE NEXT ELECTION.

And Not With a Rubber Stamp, as Heretofore—The Process Simplified Under the New Law—Make a Cross With a Blue Pencil, Furnished by the Election Officials, Inside the Large Circle Surrounding the Eagle.

Republicans should make sure that nothing will prevent them from voting on August 10, and they should make doubly sure that they mark their ballots correctly, in accordance with the new law, so that they will be counted. The new method is simple, but should be thoroughly understood. Make a cross, or an "X," not a dot or any other mark, in the circle surrounding the eagle at the head of the Republican ticket.

The changes made by the new law are as follows: A large circle is substituted for the large square surrounding the party emblem at the head of each ticket. Around the outer edge of the circle are the words "To vote a straight ticket make an 'X' within one circle and not otherwise."

A blue pencil is used by the voter instead of a rubber stamp. The pencil is given each voter by the polling clerk, and is supplied by the election officials. No other pencil can be used, and the pencil must be returned by the voter to the clerk.

To vote the straight Republican ticket make a cross or an "X," with the blue pencil inside the large circle surrounding the eagle.

At the August special election there will be but one name on each ticket. There will, therefore, be no opportunity to vote a "mixed ticket." A cross or an "X," in the small square in front of the name of Charles W. Lee will have the same effect, exactly, as a cross, or an "X," in the large circle around the eagle. A "mixed ticket" is voted with a pencil in the same manner as formerly with the rubber stamp, where more than one name appears on the various tickets.

Mark your ballot with a cross inside the circle and NOT ELSEWHERE.

FIGHT FOR A BIRDHOUSE.

Flycatchers Driven Out by Bluebirds.

Wrens the Final Victors.

"One spring," said a lover of birds, "there came to a birdhouse in my garden a pair of great crested flycatchers. I had a dozen birdhouses scattered around. This particular one was about a foot square, with a peaked roof and a chimney at each end, a doorway for the birds to go in and out and a couple of angle holes bored through the back to give the house light and air.

"This birdhouse, the summer before, had been occupied by a pair of bluebirds, who had left their nest behind them. This nest the great crested flycatchers pulled apart and threw out of the house, every twig and straw. They cleaned the house out completely and then they brought in everything new and built a nest of their own and settled down comfortably for the summer.

"But in a few days a pair of bluebirds came along, and they made for this house. It might have been the same identical pair of bluebirds that occupied it the summer before. I don't know about that, though I have no doubt that robins and other birds that have been south for the winter, hundreds of miles away, do come back in the spring to the same places and to the same trees. Anyhow this pair of bluebirds wanted that birdhouse, and they were ready to fight for it, and that is what they did. The flycatcher is a nice little bird and a pretty plucky sort of a fighter, but not a match for the bluebird. They had a grand round up inside the house, and finally the bluebirds pitched the flycatchers out, and later they pitched out every stick of furniture that the flycatchers had brought in, cleaned the house out entirely and then brought in fresh material and built a new nest according to their own ideas, and they settled down for the summer.

"Well, a few days after that a pair of wrens came along, and they took a fancy to that particular birdhouse, too, and they sailed right in and tackled the bluebirds on the spot. You couldn't see the fight from the ground, but every now and then you could see a straw or a feather shoot out of the front door of the house. The bluebird is a good, sound fighter, but the wren is a better one, and the upshot was that the wrens fairly put the bluebirds out and took possession of the birdhouse themselves. And then the wrens did just what the others had done. They pitched out every scrap of stuff in the birdhouse—just tumbled it out of the door, to fall on the ground—and then they brought in new stuff and built a nest for themselves.

"Nobody molested the wrens. They staid there and raised their young there, and in the fall they all flew away and left the birdhouse again deserted for the winter."—New York Sun.

Deplored the Loss.

General John McNeil, who was a brother-in-law of President Pierce and major general of the New Hampshire militia at one time, is said to have been considerably incensed when he met any one who appeared to be ignorant of the wrens and honors he had won on the field of battle.

"How did you hurt your knee, general?" asked a young man whom the old officer characterized as a "whipper snapper" one day from a certain lack of respectfulness in his air and manner. "Did you have a fall?"

"Yes, sir," snorted the general indignantly. "I fell off a horse! You never read the history of your country, did you, sir?"—Youth's Companion.

GOV. MOUNT'S APPEAL

He Asks the State at Large to Assist the Miners.

NECESSITIES OF LIFE NEEDED.

Operators Acknowledge Their Responsibility in a Measure For Present Condition—Women and Children Enduring Unbearable Hardships—Meeting of Operators and Arbitrators at Pittsburg.

INDIANAPOLIS, July 27.—John B. Conner, state statistician, and Thomas J. Terhune, ex-judge of the Boone circuit court, appointed special commissioners by Governor Mount to investigate the conditions existing in the mining districts of the state, concluded their mission yesterday, by submitting a written report to the governor. Their conclusions were deemed of sufficient importance to warrant the governor in taking steps for making a public appeal for assistance for the miners and their families.

A blue pencil is used by the voter instead of a rubber stamp. The pencil is given each voter by the polling clerk, and is supplied by the election officials. No other pencil can be used, and the pencil must be returned by the voter to the clerk.

for settlement of the strike. The board is busy completing the contract which is to be presented to the meeting at the courthouse. No one can at this time predict the outcome of the conference, which is expected to last two, and perhaps three days, and neither side has anything to say as to the proceedings.

Failure in the Fairmont District.

FAIRMONT, W. Va., July 27.—The strike in this state which reached its height yesterday would be general yesterday if vigorous efforts by Debs, Mahon, Cosslett, Miller and Batchelor, the miners at Fairmont remain unshaken. It was agreed that if there was no strike yesterday, efforts would cease and an appeal be made to the railroad men to stop hauling coal.

BAR ASSOCIATION.

Major C. W. F. Dick's Admission to Practice Being Investigated.

AKRON, O., July 27.—The investigating committee appointed by the State Bar association will soon look into the alleged irregular admission to the bar of Major Charles W. F. Dick of this city. It is claimed that Major Dick did not comply with the rules requiring attorneys to either graduate at a regular law school or study three years in a law office.

Major Dick's admittance to the bar a year ago was a surprise to Akron attorneys. It was not known that he was studying law. He has since been admitted to practice in the United States supreme court. Lawyers are required to practice three years at home before they can be admitted there.

WASN'T LONGFELLOW.

Identity of the Hopkinsville Suicide Still Unknown.

HOPKINSVILLE, Ky., July 27.—The mystery surrounding the identity of the stranger who died in this city Friday from the effects of a dose of morphine still remains unsolved. It was thought that he might prove to be John Longfellow, who is wanted in Cincinnati for assaulting a child. A description of Longfellow received from that city by the police here does away with this belief, there is no resemblance between the dead man and Longfellow's description. Several other clues have been placed in the hands of the police and it is thought one may result in solving the question of the dead man's identity.

ELECTROCUTED.

Teamster Climbs a Telephone Pole and Grasps a Live Wire.

NEWARK, N. J., July 27.—William Karstens, 28 years old, was electrocuted on a telephone pole in front of Kaffold's hotel. He touched a live electric light wire, a flame shot forth and the man dropped from the pole dead.

Karstens formerly lived at the hotel. While there he was in the habit of climbing up a high pole to the first crossarm used by the telephone company and sitting on it, and he was again trying this feat when he grasped a live wire.

Boston Dinner to Secretary Gage.

BOSTON, July 27.—Lyman J. Gage, secretary of the treasury, who is to be the special guest of honor at a dinner given by Boston business men this evening, arrived in Boston last night accompanied by his wife.

Sold by Order of Court.

MARION, O., July 27.—The plant of the Marion Milling company was sold to a reorganizer of the company for \$20,334 under an order of sale issued in the case of the Hayden National bank of Columbus against T. P. Wallace.

McCoy and Ryan.

SYRACUSE, July 27.—The sparring match between Kid McCoy and Tommy Ryan will take place at the Empire Athletic club in this city, Sept. 8, for a purse of \$25,000.

Went to Jail.

MUNCIE, Ind., July 27.—The first of the Sunday law violation cases was tried yesterday and Josiah Drake, ice cream dealer, was found guilty and fined \$10. He was sent to jail in default of payment.

Indiana Postmasters.

WASHINGTON, July 27.—Indiana postmasters were appointed yesterday as follows: Bass, G. F. Warkentin; Bloomington, W. M. McCoy; Foraker, J. E. Miller; Hastings, Lizzie Cummings; Morill, C. W. Means; Reese Mills, J. S. Moore; Summit Grove, T. M. James; Wyatt, W. G. Deal.

Was Proud of It.

Receiver Hubbard Sentenced to the Penitentiary—Sensational Speech.

TOPEKA, July 27.—A. D. Hubbard, who was convicted of embezzling \$5,000, as receiver of the Hamilton Printing company, was yesterday sentenced to three years in the penitentiary by Judge Hazen.

Hubbard was a prominent lawyer here at the time of his arrest, was law partner to Lieutenant Governor Harvey and was state president of the A. P. A. of Kansas.

When sentence was pronounced Hubbard made a sensational speech. He said he was convicted that he was convicted because of his connection with the A. P. A., and if so was proud of it.

\$300,000.

That August Represents the Loss of Importers For Last Saturday.

NEW YORK, July 27.—When Collector of Customs Bidwell made formal announcement yesterday that the duties at Dingley law rates would be collected on goods entered on Saturday, many protests were at once filed by importers of goods entering on that day.

These goods arrived by the Normania from Hamburg, the Paris from Southampton and the Umbria from Liverpool. The duties under the new tariff on the goods on these three vessels amounted to about \$600,000. Under the Wilson tariff the duties would have amounted to about \$600,000. Accordingly the loss to importers appeared to be about \$600,000.

ROBT. J. TRACEWELL

President McKinley Will Make Him Controller of Treasury.

APPOINTMENT OF POWDERLY.

Many Inconsistencies Discovered in the New Tariff Bill, Which May Cause Trouble—Taylor and Woodford Shown Exceptional Honors by the Queen of Spain—Indiana Postmasters.

WASHINGTON, July 27.—The president has decided to appoint Hon. Robert J. Tracewell of Indiana for the position of controller of the treasury. President McKinley, realizing the important questions coming up for decision in the controller's office, has been giving the matter of the selection of an appointee considerable attention and finally concluded to give the place to Mr. Tracewell. The appointment, it is said at the white house, is entirely one of merit. Mr. Tracewell being selected because of his fine legal attainments.

The position has been vacant since the retirement of Controller Bowler on the first inst. Mr. Tracewell is a native of Virginia but in early life moved with his parents to Indiana, where he has since resided. He was a representative in the Fifty-fourth congress from the Third district of his state and is 43 years of age.

Powderly's Appointment Signed.

The recess appointment of Hon. T. V. Powderly as commissioner general of immigration was signed by the President yesterday. Mr. Powderly's nomination for that office failed of confirmation in the senate because of the opposition to him on the part of labor organizations.

TARIFF INCONSISTENCIES.

Many Have Been Discovered in the New Act.

WASHINGTON, July 27.—The treasury officials already have discovered a number of inconsistencies in the new tariff act, some of them, it is feared, being incapable of reconciliation. It is pointed out that section 262 places the duty on plums at 25 cents per bushel, and section 264 fixes the rate at 2 cents per pound. An error in these paragraphs as to currants was corrected in conference. Another section fixes the rate of duty on hides of cattle at 15 per cent ad valorem, and admits raw skins free.

The question involved is the classification of calf skins it being contended that commercially calf skins are not classed as hides of cattle and hence are entitled to free entry which is believed to be contrary to the purpose of congress.

Attention is also called to the fact that the provision as to licenses for custom brokers was, by inadvertence, it is believed, left out of the act. Circulars are in preparation construing a number of the sections of the act. Persons entering this country are permitted under certain restrictions to bring with them duty free "usual and reasonable furniture." This is interpreted to mean such furniture as would be reasonable and useful for the personal use of persons in their condition in life.

Without Precedent.

WASHINGTON, July 27.—The state department has been informed that a very gracious exception has been made by the queen regent of Spain in consenting to receive Mr. Taylor, the retiring United States minister, and Mr. Woodford, where she does not maintain a court in the usual sense of the term. The economy necessarily will be informal. This arrangement was brought about through the courteous and considerate offices of the duke of Tetuan. It is without precedent.

Sick Headache.

Neuralgia and Extreme Nervousness.

EVER since I was eighteen years old until I learned of Dr. Miles' Restorative Remedies, I suffered from sick headache and extreme nervousness and dyspepsia. In time heart disease developed. I was treated by several doctors with no result. Severe palpitation with pain in left breast, shortness of breath, and smothering spells made me most miserable. I procured Dr. Miles' Restorative Nervine and New Heart Cure and took them alternately as directed. Improvement began at once and increased so rapidly that inside of six months I increased thirty six pounds in weight. All pain in the heart is gone, and the nervousness has wholly left me.

Daily Republican.

OFFICIAL PAPER OF SEYMOUR.

JAY C. SMITH, Editor and Publisher.

TUESDAY, JULY 27, 1897.

TERMS OF SUBSCRIPTION.

One Year in Advance \$1.00

Entered at the Seymour, Indiana, Postoffice as Second-class Matter.

For Congressman Fourth District,

MAJOR CHAS. W. LEE,

Of Switzerland County.

The Indiana congressman fared well in Speaker Reed's appointment of committees.

The fellow who lacks money enough to go to the Klondike region is probably in great luck without knowing it.

The efforts of the calamity people to hold back the return of prosperity until the fall elections are proving fruitless.

Bryan inoculation seems to be no preventive of the Klondike gold fever. The sixteen-to-one men are infected just as badly as the genuine gold standard followers.

A MAJORITY of ten in the senate for the new tariff law when that body is not controlled by the republicans is a strong indication of the growth of the republican idea of protection.

THE REPUBLICAN is under obligations to the St. Louis Globe Democrat for the use of the cartoon which appeared on the first page yesterday. Bryan indeed has a hard problem to make the facts support his conclusion.

THE REPUBLICAN today publishes the new ordinance regulating the use of bicycles, hand carts, etc., in the city. Our people will do well to read it carefully and become familiar with its provisions.

SOME people are cruel enough to question Bryan's statesmanship. A year ago he declared that under the iniquitous gold standard wheat would fall to 25 cents a bushel. The fact is it is selling in local markets for 67 cents, which is 20 cents more than it brought a year ago.

It is estimated that summer pleasure seekers spent \$100,000,000 in their summer vacations. An equal amount will be spent by those who seek the winter pleasure of city life. When we can afford \$200,000,000 per year for pleasure it is pretty good evidence that times are not so desparately hard as some people would have us believe.

THE South Bend Tribune of Saturday contained two and a half columns of the views of manufacturers and business men in that city, the general tenor of which is that South Bend has already entered a period of business activity. Such reports from that city are important, because industries like the Studebaker carriage and wagon works, the Oliver chiller plow works, the woolen manufacturers and the extensive toy works have a very extended field in which they sell their goods. Consequently, when they report a greatly improved demand and are running full capacity there must be a general improvement in business. Some of these industries are being extended and all of them are in active operation. And yet with all the demand for money which increased business causes, the rates of discount are lower than a year ago—Journal.

TEACHING BY EXAMPLE.

A cyclone can rip a house to pieces in a few seconds; it takes many weeks to rebuild it.

A strong wind can uproot a tree in a moment; it takes many years to grow another like it.

A dam may be cut in an hour and the destroying waters rush out causing destruction in its track; it takes many days to rebuild the dam.

A rising river brings destruction to hundreds of homes in a few hours; it requires months to restore the homes and lands to their former condition.

A terrible fire destroyed the larger part of Chicago in a night and a day; it took years to rebuild it.

An insidious disease rapidly reduces a robust man to a skeleton; it requires weeks to restore him to health and months to bring him back to his former physical strength.

And when democracy has brought the nation to the verge of ruin, it is unreasonable and absurd to expect the republicans to restore it to its former condition in a day or a week.—New Albany Tribune.

POLITICAL BREVITIES.

Ex-Congressman Tracewell has been appointed Controller of the treasury. It is an important office and ranks second only to a cabinet position. The position pays \$6,000 a year.

There are still a few of the democratic papers in the district that don't seem quite certain yet whether Marion Griffith or John Overmeyer is the democratic candidate for congress, judging by their efforts in keeping the latter before their readers at the sacrifice of the former. They seem to think it more important to advertise the latter for the future than to encompass the election of the former at the present. The papers were the personal organs of Mr. Overmeyer in his candidacy against Mr. Griffith for the nomination.—Columbus Times.

Late Literary News.

With five delightful stories in the August Cosmopolitan, one might judge that it was intended solely for light reading in mid summer; but a second glance shows that it contains as well much of serious interest. The second paper by the special commissioner sent by the Cosmopolitan to India tells a tale of the like of which has never before appeared in any periodical. We have in histories second hand accounts of great famines, but they lack the startling distinctness which comes from beholding at first hand the sights described. Twenty millions of people slowly starving to death, many of them in sight of the railways. No American can form any idea of the state of affairs now existing in India. Mr. Hawthorne has gone into the interior and stood amongst the dead and dying. It is the first time that we have had an American investigation of the condition of affairs in India. The report will open the eyes not only of the civilized world, but of the English parliament and the Queen herself to the necessity of extraordinary exertion in behalf of these unfortunate millions.

HONEYTOWN.

Willie Robertson has purchased a new buggy.

William Hays went to Osgood to attend the fair.

Bertha Trulock, of Seymour, is visiting Eugenia Robertson.

Miss Ada Sewell visited in Lafa Robertson's family one night last week.

A false report has got abroad that there is whooping cough at this place.

Several from here attended the quarterly meeting at Surprise, Sunday.

The stand rights were bought by W. Brock and E. Sewell for the picnic here, Consideration \$64.50.

John E. Hunsucker, of Vallonia, who has been feeding a car load of hogs here, has taken them away for fear of cholera, and shipped them to Cincinnati Monday.

"Last summer one of our grand-children was sick with a severe bowel trouble," says Mrs. E. G. Gregory, of Fredericktown, Mo. "Our doctor's remedy had failed, then we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave very speedy relief." For sale by C. W. Milhouse.

THE SOLDIER VOTE.

Major Charles Lee's Popularity With the Veterans in the Fourth District.

As the cycle of time winnows the old soldiers from the ranks and each year finds the number of veterans greatly decimated by death, the fraternal spirit and feeling of comradeship grows stronger. Many of those who served their country so heroically during the trying times from '61 to '65 are now incapacitated by age and by disease contracted on the march and in the camp from active service, but these facts tend to strengthen and unite more closely the bonds of comradeship and the love of the veterans one for another.

These facts are demonstrated by the way the old soldiers in the Fourth congressional district are rallying to the support of Major Charles W. Lee, the Republican nominee for congress. As an abstract proposition, the majority of the old soldiers vote the Republican ticket, but in recent years the late Judge Holman received a large number of soldier votes in his district because of his well known kindness to the soldiers in looking after their interests in the pension department.

The Democrats have nominated a man who is not a soldier and whose sympathies are not with the old veteran. The Republican party, which has ever championed the cause of the veterans of the late war, nominated a gallant soldier, Major Charles W. Lee, who enlisted in his country's service when but a boy and served four years and eight months. In addition to being a soldier he is a man of good ability, unquestioned integrity and an honorable Christian gentleman.

The soldiers of the Fourth congressional district are honored by the nomination of their comrade and should take pleasure in working for him, and special interest in seeing that he is elected. Every voter of the district who served his country's cause in the late rebellion should feel it an honor to vote for Major Lee.

The New Tariff Law and the Farmer.

In the new tariff law the agricultural interests of the country are well protected, the duties being quite generally the same as those of the McKinley law. The Democratic contention ever since the agitation began in 1884 has been that the tariff on farm products in no way benefits the tiller of the soil. Through three campaigns the Democrats insisted that wool and other farm products should go on the free list. In effect, they maintained that if we would take the duty off wool, which averaged about 12 cents per pound, that the farmer of the United States would get a higher price for his wool. In effect, the Democratic argument was that if the United States would take the tariff off barley and garden stuff, so that Canada could supply the New York and New England markets, the farmers of this country would get higher prices for barley and vegetables. The Democratic theory was that if the tariff on eggs and poultry was reduced so that our Canadian neighbors could ship a few thousand dozen eggs and chickens into New York city every month, it would in some mysterious way cause our farmers to get a better price for eggs and poultry.

On the other hand the Republican party, during all the tariff agitation, contended that if the tariff was taken off the American woolen manufacturers would pay the American farmer no more for wool than he would have to pay the foreign competitor; that, if by a reduction of tariff duties on farm products, a part of our home market was given to Canada and Mexico, a reduction of the prices of such products would follow. Four years of experience with a Democratic tariff has shown the Republican position to have been correct. The wool industry has been well high destroyed and the prices of all farm products have been reduced. Farmers are gratified that the McKinley tariff rates on farm products are again placed upon the statutebooks and the home market for these products is to be restored to the people to whom it rightfully belongs—to the American farmers.

The reciprocity feature of the new tariff law, like that of the McKinley bill, will also prove advantageous to the farmer. Under its provisions treaties will be negotiated with the various protective tariff nations of the world by which special advantages will be procured for our agricultural products. In other words, the new tariff law, known as the Dingley bill, will bring back to the American farmer the markets he lost when the Democrats repealed the McKinley law—and with good markets good prices will be restored.

There is not a free silver nation in the world that has gold in circulation as money. In the history of the world there never has been a nation that coined gold and silver at a false ratio, as now advocated by the Democratic party, that ever had any gold in circulation. There is not now and never has been a nation coining silver at a false ratio, and as now advocated by Bryan and his followers, where gold was not at a premium, yet we are told that the United States should try the plan and see if it will not work differently from what it does, or has ever done, in other nations. Gold has never circulated as money in any country, unless it was a gold standard country, or where gold or silver were coined at their commercial ratio.

The sugar trust made an attempt to stampede congress by increasing its stock quotations when the report of the tariff conference committee was made. That was a shrewd move; but by the strenuous efforts, against most formidable opposition by the trust and the Democratic minority, the scheme was exposed thoroughly, and the house was brought to the realization of the real fact, which the country now well knows, and that is that the sugar trust has been badly hurt.

If the free-silver-sixteen-to-one anti-capital-anti-prosperity agitators will look at the record they will find that the men who stood out strongest and longest for the sugar trust were a few free silver senators whom these same croakers and agitators followed in the last campaign. Cascarats stimulate liver, kidneys, and bowels. Never sicken, weaken or gripe 10c

80,000,000 BUSHELS

Of American Wheat Needed to Supply Demand in France Alone.

It looks as if the deficiency in the wheat crop in France would be so great that not less than 80,000,000 bushels of American wheat will have to be imported to satisfy the demand. In the Danubian states and in southern Russia the wheat crop is announced as practically a failure. There is a shortage in Argentina, in Australia and India. The latest reports from agricultural centers make it clear that the wheat crop in the United States this year will exceed the crop of last year by more than 100,000,000 bushels. At least 550,000,000 bushels are promised. What do these figures signify? They signify prices for the farmer higher than any he has enjoyed for many years. They signify more money spent as a consequence this fall with the country merchant. That means that the country merchant must buy of the jobbers in the city. It means a general increase in the circulation of money throughout the country, a restoration of confidence and therefore better times. Nothing else can be figured out of it. Even the Bryanites are forced to this conclusion after a view of the premises.

When the baby is teething he is nearly always fretting. The best thing to give him during these fretting spells is Dr. Bull's Baby Syrup. It is safe and effectual. Price only 25 cents.

ECLIPSE OF THE SUN.

May be Visible Here About 7:30 O'clock Thursday Morning.

Next Thursday morning between 7 and 10 o'clock will occur an eclipse of the sun, which will be partial to the central part of the United States and visible in this vicinity. To observers here it will begin at about 7:30 o'clock and will end about an hour later. The sun will be about one third eclipsed as the moon in its circuit passes between the earth and the sun. Throughout the United States, Mexico, Central America and the northern portion of South America, is a strip 2,300 miles wide, extending across the Atlantic, on the west coast of Africa and in a part of the Pacific ocean the eclipse will be visible. Along the equator it will be total.

**McLean's
Great Newspaper.**

There is no single exception, there
is no doubt no greater or more
valuable newspaper in the United
States than the Cincinnati Enquirer;
and a more successful publisher than
its proprietor, Mr. John R. McLean.
The old-time prices for the Daily
Enquirer have been maintained, and
its circulation largely increased each
year; hard times and cheaper jour-
nals failing to attract its onward march
and high appreciation of the public
for its true worth and merit.

The Weekly Enquirer at beginning
of the campaign year was offered at
50 cents a year, and its circulation
increased by the addition of over
200,000 new subscribers; the most
substantial and coveted testimonial a
publisher could desire.

When asked for the secret of such
success, Mr. McLean frankly answers:
The Enquirer has no opinions to force
upon its patrons, it simply prints the
facts and tells the truth that the reader
may form his own opinions. By
maintaining the price of the paper,
more news and greater variety can be
furnished, and every class of business
interests catered to, which a cheaper
journal cannot afford.

The very liberal support given the
Enquirer by the public at large, makes
it incumbent upon the management
to serve it faithfully with zeal and en-
terprise in minor matters as well as
use of greater magnitude.

Who are Employing "Spotters."

It has finally been found out that
various security companies are respon-
sible for the employment of "spotters"
on the different railroads. Many of
the employees of railroads are under
bond, and these bonds are furnished by
security companies. In order to find
out what their wards are doing, the de-
tectives were employed to ascertain
their habits of life, etc. A conductor
was discharged because he was a fre-
quenter of the race track and made
bets in a small way, though his reports
apparently were all right, and, so far as
can be found out, he used only his
own money. Several employees of the
local lines are on the list as the result
of the work of spotters.—Indianapolis

No Politics in This.

The last week has developed a gen-
eral feeling that the times of business
prosperity so long looked for are at
hand. Far-seeing and prudent business-
men freely express their confidence in
an almost immediate revival of busi-
ness. The stock and grain markets are
not the only indices pointing in this
direction. The condition of the crops
the present and prospective demand
therefor, the decided improvement in
the live stock and packing industries
the published statements showing the
great reduction which has been effected
in farm mortgages and other burden-
some forms of indebtedness, the pend-
ing settlement of the tariff question
the excitement regarding gold mining
the increased inquiry for railway equip-
ment—all these point in one direction

**Reasons Why Chamberlain's Colic, Cholera
and Diarrhoea Remedy is the Best.**

1. Because it affords instant relief in
case of pain in the stomach, colic and
cholera morbus.
 2. Because it is the only remedy that
never fails in the most severe cases of
dysentery and diarrhoea.
 3. Because it is the only remedy that
will cure chronic diarrhoea.
 4. Because it is the only remedy that
will prevent bilious colic.
 5. Because it is the only remedy that
will cure epidemic diarrhoea.
 6. Because it is the only remedy
that can always be depended upon in
cases of cholera infantum.
 7. Because it is the most prompt
and most reliable medicine in use for
bowel complaints.
 8. Because it produces no bad re-
sult.
 9. Because it is pleasant and safe to
take.
 10. Because it has saved the lives of
more people than any other medicine
in the world.

in the ability of the government to

BLAINE'S MEMORY.

NEVER FORGOT A FACE OR THE
NAME OF AN ACQUAINTANCE.

The Wedding Notice He Wrote When
an Editor—Some Striking Incidents
That Were Related by Ex-Governor
Cumback of Indiana.

Upon taking editorial charge of the
Kennebec Journal Mr. Blaine soon
familiarized himself with Maine poli-
tics by studying the files of The Jour-
nal, and he studied them closely as far
back as 1825. By this means he soon
became the best posted man in the state
on Maine politics, and he was looked
upon as authority. His able editorials
during the campaign bringing up po-
litical matters of the past showed care-
ful research, and they were copied wide-
ly. It was while editor of The Journal
that he was one day stopped on the
street by an old lady whom he had never
seen before and asked to write up the
wedding of her daughter, which occurred
the night before.

Blaine had served his time in con-
gress and went to Maine to speak
during his campaign, when at the close
of his speech he began shaking hands with
the masses crowded around him. An
old lady with wrinkled brow and whit-
ened hair, bearing a babe in her arms,
approached and offered her hand.

"Why, how do you do?" said Mr.
Blaine. "Where's that daughter of
yours I wrote up that wedding notice
about?"

"Poor Lucy is dead," said the old
lady, and her eyes filled with tears.
"This is her child."

The man with the big, kind heart
reached over and kissed the little blue-
eyed girl.

During the Greeley campaign in 1872
ex-Governor Cumback of Indiana spoke
with Mr. Blaine in Springfield, O. This
was early in the campaign. Just before
the election Mr. Cumback was sent up
in Blaine's state to make a speech. He
was told by the committee that he
would find Maine people very stiff and
inimicable and quite different from
the western people. Mr. Cumback was
surprised, however, at his enthusiastic
reception, there being large crowds
everywhere, and he never had a more
enthusiastic meeting than at Augusta.
He told Blaine of the incident and his
agreeable disappointment.

"Oh," said the statesman, "they had
a man of unusual stuff to get them
stirred up! Such a man on a speech as
you are would have a good reputation
anywhere."

"But what do you know about my
speech?" asked the governor.

"Didn't you speak with me over at
Springfield?" said Blaine in a way as a
reminder. Then he went ahead and told
Mr. Cumback all about his speech, of
the crowd present and gave promptly
all the main points of the speech and
even named the party with them. He
also remembered at what hotel they put
up and what day of the week it was.

Another instance of Blaine's great
memory is cited in the following story,
as told by Mr. Cumback:

"During the Garfield campaign Mr.
Blaine spoke in Cumback's town. He
was entertained by Mr. Cumback and
driven over town.

"There's a sick man in that house
there that has been talking you up for
president for four or five years," said
the governor, "and he thinks there is
no one like Jim Blaine."

"Me for president?" said Blaine.
"Yes, you for president. Do you
want to stop and go in to see him a
minute? Nothing would please him bet-
ter."

They went in and remained a few
minutes. Blaine trotted the children on
his hip and talked freely with the sick
man, whose name was David Kerr.

Blaine and the governor met at Gar-
field's inauguration.

"How are you, Will?" asked Blaine.
"And he asked all about the men he had
met in Cumback's town seven months
before and called nearly all of them by
their first names. "Oh, yes," he said,
"how is Dave Kerr? Did he ever get
well? Poor fellow, he suffered terribly.
And these little children, how about
them?"

This may be considered a wonderful
feat of memory. It was in October when
he met these people, and it was on the
4th of March, nearly five months after-
ward, that he recalled his visit, re-
membering the name of every person
he was introduced to on that day. He
had seen a million people since that
time and had shaken hands with and
met thousands.

Mr. Cumback accompanied Mr.
Blaine on his speaking tour through In-
diana during his campaign in 1884. It
was just ten days before election. Cum-
back left him at Lafayette, saying that
he wouldn't see him again until the
inauguration.

"I don't know," said Blaine doubt-
fully. "I'm afraid it won't be."

He had an unusual, vacant, faraway
look in his eyes, and he was very seri-
ous. His words came slowly and hesi-
tatingly. Mr. Cumback assured him
that there was no doubt, but Blaine
shook his head.

"I don't know," said he. "I've had
a sort of feeling for the last week that
I wouldn't be elected. I hope I will,
but the outcome is doubtful, and I feel
now as if it were very doubtful. But if I
am defeated I will go to work the next
day on my book."

And he did. He began the second vol-
ume of his "Twenty Years of Con-
gress" the next day after the election.
—Chicago Times-Herald.

He Said.

"Don't waste your time in clipping
off the branches," said the woodman to
his son, "but lay your ax at the root of
the tree." And the young man went
out and laid his ax at the foot of the
tree, like a good and dutiful boy, and
then he went fishing. Truly there is
nothing so beautiful as filial obedience.
—Strand Magazine.

HOW TO FIND OUT.

Fill a bottle or common water glass
with urine and let it stand twenty-four
hours; a sediment or settling indicates a
diseased condition of the kidneys.
When urine stains linen it is positive
evidence of kidney trouble. Too fre-
quent desire to urinate or pain in the
back, is also convincing proof that the
kidneys and bladder are out of order.
What to do.

There is comfort in the knowledge so
often expressed, that Dr. Kilmer's
Swamp Root, the great kidney remedy
fulfills every wish in relieving pain in
back, kidneys, liver, bladder and every
part of the urinary passages. It corrects
inability to hold urine and scalding
pain passing it or bad effects following
use of liquor, wine or beer, and over-
comes that unpleasant necessity of be-
ing compelled to get up many times
during the night to urinate. The mild
and extraordinary effect of Swamp-
Root is soon realized. It stands the
highest for its wonderful cures of the
most distressing cases. If you need a
medicine you should have the best.
Sold by druggists price fifty cents and

YOUR PRINTING

is what we are after. Suppose you
bring your work around and let us show
you what good work we can do at a
reasonable price. We are not the
cheapest printers in the vicinity, but
we do say we are the best. But come
over and see for yourself whether our
printing is good enough and cheap
enough to suit you.
